This wheat has given such universal satisfaction to all that have tested it, that nothing remains to be said in its favor. It speaks for itself. It is pure, no cheat, rust or rye, clean bright straw, ontyledding all other kinds of wheat wherever fairly tested, early as the May and well adapted to our soil and climits. I refer those who desire to change seed this year to all who bought Fultz wheat of me last year. I most understandingly say that Fultz has no rival as to yield and hardiness. I will be ready to fill orders by the 20th of July. Price at hear, \$1.00 on cars, \$1.10, until further notice.
